

June 2015

Study visits from UNDP/GEF delegation from Ukraine

June has been a busy month with several study visits. A staff exchange arranged by Salixenergi Europa AB for participants in the EU project included a demonstration of the Billet harvester at Tågra Farm.

HSAB helped arranging a study tour on salix for the Ukrainian delegation of members of the Ukrainian national and regional parliaments as well as UNDP/GEF and the Swedish Embassy. The group visited Salix actors in research, policy and production, from Stockholm in the north to Skåne in the south. Among other sites, the group saw the Billet harvester at Tågra and visited Öртоfta CHP.

Gunnar shows the Billet Harvester to the group from the Rokwood project.

The Ukrainian group together with our hosts. In the center, standing, is the managing director of Kraftringen AB, Ms Sylva Michel.

The HSAB billet harvester is demonstrated to the Ukrainian visitors from UNDP/GEF delegation at Tågra Farm.
